RE: PIEDMONT SANITARY LANDFILL LEACHATE DISPOSAL

Dear Jim:

Attached please find a copy of the Discharge Permit issued to Waste Management of Carolinas, Inc. Piedmont Sanitary Landfill from the Town of Kernersville to dispose of landfill leachate at the Abbott's Creek WWTP.

I hope this satisfies your needs regarding this issue and should you have any questions, feel free to call.

Sincerely,

Edward L. Gibson, P.E.
District Environmental Engineer

Re: Piedmont Sanitary Landfill, Kernersville, N.C.
Leachate Disposal

Dear Mr. Gibson:

Your application for an Industrial Waste Discharge Permit to discharge leachate from the subject landfill into the Town's Abbotts Creek Wastewater Treatment Plant is acknowledged. The Town's consultant, Mr. Jim Cheshire with Research and Analytical Laboratories, Inc., and I have reviewed the data you furnished on a nationwide leachate study, and if the concentrations of the various parameters analysed are indicative of the waste your landfill will be generating we see no problem with the Abbotts plant being capable of treating your estimated discharge of 10,000 gallons per month.

Please be advised that the Pretreatment Program Coordinator for the N.C. Division of Environmental Management must approve your permit to discharge and that we will do everything possible to obtain this approval in a timely manner.

Sincerely,

Robert K. Campbell
Public Works Director

Re: Piedmont Sanitary Landfill, Kernersville, N.C.
Leachate Disposal

Dear Mr. Gibson:

Please be advised that the Pretreatment Program Coordinator for the N.C. Division of Environmental Management has placed your proposed operation in the category of an insignificant discharger. This means that his office will not have to review and approve your permit to discharge leachate into the Abbots Creek WWTP.

Enclosed is one copy of Permit No. 0004 authorizing the discharge of leachate, via pump and haul, into the head of the aeration basin at the Abbots Creek WWTP.

I trust this will satisfy the requirements of the Division of Health Services, Solid and Hazardous Waste Management Branch, for leachate disposal.

Sincerely,

Robert K. Campbell
